

AQ II

Descended from the boat that began "breaking the old molds," the AQ II is still a hot paddling machine. Fully equipped with an "ender button" and "360 lever" it can hold its own with the new hybrid rodeo boats. This is the boat-of-choice for many instructors. It's a stable learning platform for students and it's extremely comfortable for teaching too. A real original, the AQ II makes you look good in all sorts of water. Whether spinning off 360s, popping up enders or running your favorite first descent, the AQ II delivers.

John Rose,
Purchasing/Scheduling

Length: 10'3" (312 cm)
Width: 24.5" (62 cm)
Weight: 39 lbs. (18 kg)
Volume: 74 gallons (280 l)
Cockpit: Length 30" (76 cm)

Optional: Bulkhead foot brace
Colors: Blue, purple, red, teal, yellow, multi-color

**Special pricing available for camps, institutions, and instructional programs.*

Blast

Not just a kids' boat - THIS IS THE BOAT THAT WON THE MEN'S DIVISION OF THE '95 WORLD WHITewater RODEO CHAMPIONSHIPS. The Blast is fantastic, designed to meet the needs of smaller individuals and kids (70-130 lbs). BUT even when paddled by 145+ pounders, it's been a proven rodeo winner all year. With stability and versatility for beginners and experts, this boat is no toy, even though kids love it. The Blast has really accelerated my progress in learning rodeo moves as well as improving my overall paddling skills. The Blast has been appropriately named because it is... a Blast!

Karen Mann, *Team D Athlete/3rd in 1995 World Whitewater Rodeo Championships*

Length: 9'5" (287 cm)
Width: 22.5" (57 cm)
Weight: 30 lbs. (13.5 kg)

Crossfire

I will always remember my first day in a Crossfire. I was watching hot boaters surf a tough wave on the Arkansas. Some of the younger, hotter paddlers would catch the wave for 15 or 30 seconds and then the wave would surge and buck them off. I knew I couldn't stay on that wave as long as the hot paddlers, but I wanted to give it a try. I jumped out of the eddy, ferried over, and slid on. Rudder left, scream across the face, rudder right and whip back. This boat is quick, forgiving with a big comfortable cockpit. Hey, I'm looking good! Two minutes later I'm back in the eddy. I hear, "Nice ride!" The Crossfire has been my #1 boat ever since.

Doug Ragan, *Director of Sales*

Length: 11' (335 cm)
